## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments with respect to claims 1, 2, 6 and 14 have been considered but are moot in view of the new ground(s) of rejection.

### ***Election/Restrictions***

Newly submitted claim 37 depends on non-elected claim 35 which was withdrawn without traverse in applicants' election dated 3/19/09. Accordingly, claim 37 is withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

### ***Claim Rejections - 35 USC § 102/103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1, 2, 6, 14 and 36 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over JP 5-267299 hereinafter Fujii.

Fujii teaches an alloy comprising Pt that is between about 0.03-37 atomic percent, Zn between about 0.1-63 atomic percent and Fe between 0-40 atomic percent (see English Abstract). The recitation "for use as a catalyst in oxidation or reduction reactions" in claim 1 with respect to the use of the alloy has been given no patentable weight, since it merely states the purpose or intended use of the invention, rather than

Art Unit: 1795

any distinct definition of any of the claimed invention's limitations (See MPEP 2111.02

(II). The alloy set forth in the instant claims can be used as more than a catalyst as shown by Fujii in the above 35 U.S.C. 102/103 rejection. In the alternative it would have been obvious to one of ordinary skill in the art at the time of invention to select the overlapping portion of the ranges disclosed by the reference because selection of overlapping portion of ranges has been held to be a prima facie case of obviousness.

*In re Malagari*, 182 USPQ 549.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
